## **A better way to manage your sports**

### **League Management Software and Player Registration System**

If you are reading this, then you are already aware that the administrative side of sports league management and player registration takes a lot of time and keeps you away from what you do best - working with your players, teams, coaches, parents and officials.

Web-based player registration and league management software from SportFocus is designed to work together to simplify your sports league management and free up more time for you to spend on the field!

The League Management module is rules driven and therefore perfect for any sports league and approved for use by many national sports organisations - you'll find that you appreciate using the League Management System from before your playing season starts, all the way to the finish!

The system is also driven from the central database so again you have a single view of the player / official.

### **The Modules**

The system is driven by a number of modules: the database module, the league management module and the web site front end to display as seen below.

### **League Management**

#### **League Set Up**

##### **League Parameters**

- Dates – start to end
- Points for Win / Lose / Draw
- Walkovers / Penalties
- Bonus Points

##### **Divisions**

- Assign Teams to divisions

##### **Fixtures**

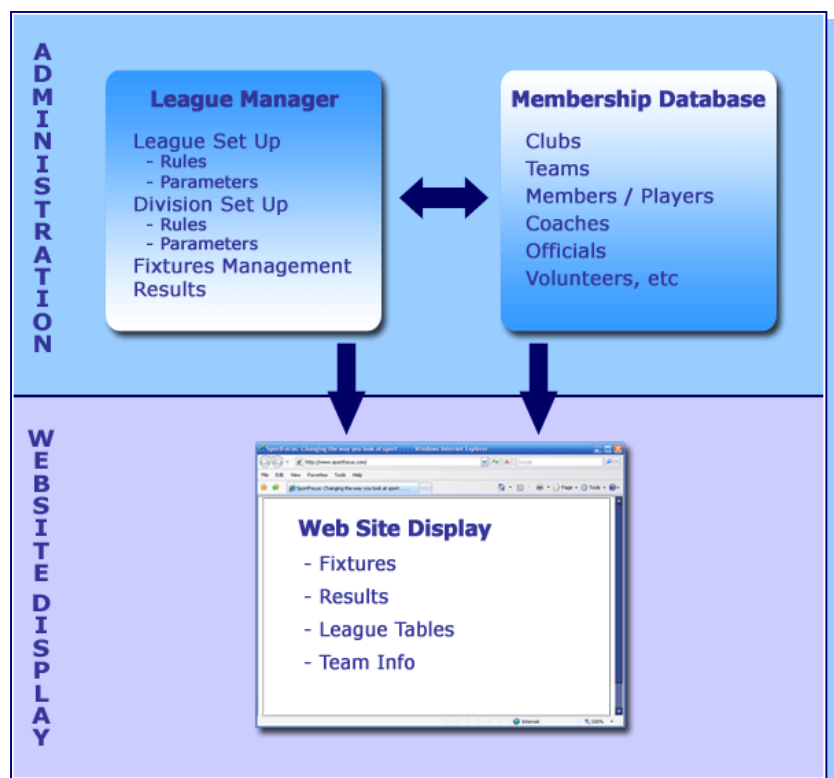

- Home / Away – no of matches
- Day played / Week Commencing
- Exclusion dates
- Create fixtures
- Flexibility to changes
- Option to create all fixtures without dates.

##### **Results & League Tables**

- Results input – web / sms (excel upload possible?)
- League Tables created based on league parameters
- Ability to add / deduct points with footnote

##### **End of league / archiving**

- End league – archive results and league table
- Relegation / promotion.

## Changing the way you look at sport . . .

### League and Division Management

The whole system is rules driven to make it extremely flexible, at the beginning of any league season the administrator can set-up standard league parameters.

At this point they will assign Points for Win, Loss and Draw and also any Bonus Points or any likely Points Adjustments.

You can enter League start date, end date and exclusion dates and which period in the week the matches are likely to take place. At this point you will also decide on number of Home and Away matches.

Any information entered into the League set-up will then be taken as the default settings when setting up the Divisions.

### Create Divisions

[Leagues](#) > Bucks U15's

Division Name

Match Scoring Type

Points Win  Lose  Draw

Points Difference Bonus Points Points  Points Diff

Fixture Date Type

Home Matches

Away Matches

**Points Adjustment**

Bonus Point 5 tries  [delete](#)

### Create League

Name

Start Date

End Date

Exclusion Dates

**Default Division Parameters**

Match Scoring Type

Points Win  Lose  Draw

Points Difference Bonus Points Points  Points Diff

Fixture Date Type

Home Matches

Away Matches

**Points Adjustment**

**Points Adjustment**

If however any Division does use different parameters then these can be edited and defined specifically for the division.

The administrator also has the facility to edit any of the rules / parameters at any point, even part way through a season. So, if it's decided there is a rule change this can be made and the system will automatically retro fit to any results made based on previous rules.

*Changing the way you look at sport . . .*

### Team Management

Team management is driven from the database so all the administrator has to do is select from the database which teams will be assigned to the divisions.

Once all the teams have been assigned to their respective divisions the system is ready to create the fixtures.

If any changes happen to any of the teams during the season, for example they withdraw from the league they can simply be removed from the league or if the team has disbanded they can be removed completely by deleting them from the database.

As soon as they are removed their fixtures are automatically removed from the system and all of the League Table positions are automatically re-calculated.

**Add Teams**

Leagues > Bucks U15's > Division 1

County:

Club:

Team Name:

Name	Add
Beaconsfield U15s	<input type="checkbox"/>
Bletchley U15s	<input type="checkbox"/>
Chesham U15s	<input type="checkbox"/>
Drifters U15s	<input type="checkbox"/>
Olney U15s	<input type="checkbox"/>
Phoenix U15s	<input type="checkbox"/>

**Update Fixtures**

Leagues > Bucks U15's > Division 1

Date	Home Team	Away Team
04/11/2007	Amersham & Chiltern u15s	Marlow U15s
04/11/2007	Buckingham U15s	High Wycombe U15s
04/11/2007	Aylesbury U15s	Amphill U15's
18/11/2007	Amphill U15's	Amersham & Chiltern u15s
18/11/2007	High Wycombe U15s	Aylesbury U15s
18/11/2007	Marlow U15s	Buckingham U15s
03/02/2008	Aylesbury U15s	Marlow U15s
03/02/2008	Buckingham U15s	Amersham & Chiltern u15s
03/02/2008	High Wycombe U15s	Amphill U15's
02/03/2008	Marlow U15s	Aylesbury U15s
02/03/2008	Buckingham U15s	Amphill U15's
02/03/2008	Amersham & Chiltern u15s	Aylesbury U15s
30/03/2008	Amphill U15's	Marlow U15s
30/03/2008	Aylesbury U15s	Buckingham U15s
30/03/2008	High Wycombe U15s	Amersham & Chiltern u15s

### Fixture Management

Fixtures can be created automatically by the system or manually depending on the preference of the League Manager. If they are created automatically then the system will use the Start and End dates for the season and also take into account any Exclusion dates. It also, looks at how many Home and Away matches were defined and from those parameters creates the Fixture list.

Having created the fixtures, any further changes throughout the league season can be made manually to the dates already assigned.

*Changing the way you look at sport . . .*

### Results Management

Results will normally be updated through the league administration or if required can be done via SMS or uploaded through a spreadsheet using bulk upload.

As the options are there for Bonus Points and Points adjustment it is most likely that the majority of results will be entered directly via the web-based league management system.

To enter the results is simple enough, just select the division and all outstanding matches from the Fixture will be shown and so it's simply a matter of entering the scores and from there the system will do all the calculations with regard to Bonus Points etc and also then calculate the League Table positions.

**Results**

Below are all the fixtures for Bucks U15's - Division 1, please enter the team scores for each fixture and click submit

Date	Home Team	Home Score	Away Score	Away Team
04/11/2007	Amersham & Chiltern u15s	39	0	Marlow U15s
	Bonus point for 5 tries	1	Points Adjustment	Points Adjustment
		Points Adjustment	Points Adjustment	
04/11/2007	Buckingham U15s	50	0	High Wycombe U15s
	Bonus point for 5 tries	1	Points Adjustment	Points Adjustment
		Points Adjustment	Points Adjustment	
04/11/2007	Aylesbury U15s	7	36	Amphill U15's
		Points Adjustment	Points Adjustment	
		Points Adjustment	Points Adjustment	
18/11/2007	Marlow U15s			Buckingham U15s
		Points Adjustment	Points Adjustment	
		Points Adjustment	Points Adjustment	
18/11/2007	High Wycombe U15s	22	19	Aylesbury U15s
		Points Adjustment	Points Adjustment	
		Points Adjustment	Points Adjustment	

### League Tables

Below is an example of the League Table, which is database driven and therefore any information on the teams is pulled from the database and only has to be updated once Details shown can include details such as Club address / venue details, multimap for directions, Team Manager information, Coach information etc.
